# What is Estate Planning? \*

Many people mistakenly think that estate planning only involves the writing of a will. Estate planning, however, can also involve financial, tax, medical and business planning. A will is part of the planning process, but you will need other documents as well to fully address your estate planning needs.

Through estate planning, you can determine:

- How and by whom your assets will be managed for your benefit during your lifetime if you ever become unable to manage them yourself.
- How and to whom your assets will be distributed after your death.
- How and by whom your personal care will be managed and how health care decisions will be made during your lifetime if you become unable to care for yourself.

Why should you consider a trust?

- A trust allows YOU to take control of who administers your assets, NOT the court.
- You can maintain your current lifestyle while making a meaningful gift to support ministry.
- You can enjoy flexibility to change your plans as life changes.
- You can pass your retirement plan assets to Jesus 101 tax-free.

Why should you support Jesus 101?

- The primary purpose of this institute is to offer Biblical training using Christ-centered interpretive tools.
- Jesus 101 is excited to share resources with schools, hospitals, and prisons, as well as reach others across the globe.
- Jesus 101 strives to create resources that motivate and equip for the study of Scripture. With your help, these resources can last a lifetime! Woo Hoo!
